OPENING COMMENTS

The purpose of this visit is at the request of B. Scott, manager, to conduct a reinspection of a facility that was closed the day prior due to cockroach activity in critical areas. See routine inspection report for details.

At the time of reinspection, a pest control service receipt was provided showing service to the facility earlier in the morning.

A thorough inspection for vermin was conducted in the facility and no further cockroach activity was observed. It was also observed that the cracks and crevices noted on the inspection report were sealed as required.

The conditions causing the permit suspension were observed corrected and your health permit is hereby reinstated. Continue to maintain the facility free of all vermin.
