OPENING COMMENTS

*** THIS INSPECTION REPORT SUPERSEDES THE HAND WRITTEN REPORT ISSUED ON SITE ***

The purpose of this visit was to conduct an after-hours inspection at the request of the business owner.

The plumbing lines were tested and found to be functioning. However, when the 3-compartment sink was draining, the floor sink adjacent to the walk-in cooler was bubbling and started to backup just a little bit into the floor sink.

Your permit will be reinstated today. However, a re-inspection is scheduled for Tuesday to ensure that the facility's plumbing system is still working properly. I recommend you have a plumber take a look at the line between the 3-compartment sink and the floor sink.

All other major violations were observed corrected.
