OPENING COMMENTS

The host facility permit was suspended due to cockroach activity. All Dependent/Shared Food Facility permits are herewith also suspended and may not operate until the permits are reinstated by a representative of this agency. See FM24 and FM50. The owner was instructed to contact this agency for reinspection when all violations noted on the reports have been corrected.

2. FOOD MANAGER CERTIFICATION; FOOD HANDLER CARDS - MINOR

Inspector Comments: Not all of the food handlers possess a California Food Handler Card. Each food handler shall maintain a valid California Food Handler Card for the duration of his or her employment as a food handler. Cards shall be valid for three years from the date of issuance, regardless of whether the food handler changes employers during that period. (Certified Food Managers are exempted from this requirement.)

Violation Description: There shall be a Food Manager Certificate on the premises for the designated employee that has passed an approved and accredited exam. Food facilities that prepare, handle, or serve non-prepackaged food, shall ensure that all food handlers have an approved food handler card. (113947.1-113947.5, 113948)

24. NO RODENTS, INSECTS, BIRDS, OR ANIMALS - MAJOR

Inspector Comments: Evidence of cockroach activity was observed in the below noted areas and the permit was suspended. (See FM50)

- live cockroaches, including females with attached egg capsules in the door gaskets of the "Superior" reach-in freezer to the left of the kitchen entrance (from lobby area)
- dead cockroaches on the bottom of the "Superior" reach-in freezer and in the gaskets/freezer door junctures
- egg capsules and dead cockroaches under the "Superior" freezer and in the open motor housing behind this freezer
- dead cockroaches of multiple life stages on a glue board under the storage rack in front of the kitchen entrance (from the lobby)

Eliminate the infestation/activity of cockroaches from the food facility by using only approved methods. Remove all evidence of the infestation and thoroughly clean and sanitize all affected surfaces. Construct, equip, maintain and operate the food facility so as to prevent the entrance and harborage of animals, birds and vermin including, but not limited to, rodents and insects. See FM44

A cockroach permit suspension information bulletin was provided to the owner this date. Follow the guidelines as outlined on the bulletin. When all violations noted on this report have been corrected, contact this agency for reinspection.

Violation Description: Each food facility shall be kept free of insects, birds, animals, or vermin: rodents (rats, mice), cockroaches, flies. (114259, 114259.1, 114259.4, 114259.5)

35. WAREWASHING FACILITIES: INSTALLED, MAINTAINED, USED; TEST STRIPS - OUT OF COMPLIANCE

Inspector Comments: Quaternary ammonium sanitizer test strips were not available for use during the time of inspection. Maintain testing equipment and materials in the facility and available for use at all times for the purpose of adequately measuring the types of sanitization methods used in this facility.

Violation Description: Food facilities that prepare food shall be equipped with warewashing facilities. Testing equipment and materials shall be provided to measure the applicable sanitization method. (114067(f,g), 114099, 114099.3, 114099.5, 114101(a), 114101.1, 114101.2, 114103, 114107, 114125)

Discontinue holding multi-use wiping cloths outside of the sanitizer solution between uses. Store wiping cloths in an approved sanitizer solution (e.g., 100 ppm chlorine, 200 ppm quaternary ammonium or 25 ppm iodine) between uses, or provide a clean cloth for each use.

Violation Description: Wiping cloths used to wipe service counters, scales, or other surfaces that may come into contact with food shall be used only once unless kept in clean water with sanitizer; separate sanitizing containers shall be provided for wiping cloths used with raw animal foods.
